

SUPERCOPA

Crisis is a thing of the past

The big 11th Supercup celebration in October, reflected just how the Simplified Project can make a difference. The Brasilata team did not fall apart during the critical period in the first half of 2009 and kept the fire going. In the company's ongoing drive to cut costs, the inventors presented solutions and the company could therefore zero out losses without incurring any reductions in salaries or layoffs.

SÃO PAULO UNIT

Idea # 120,793

Device for closing pneumatic plus pail

Inventors: Kátia Alves Guerra, Douglas Soares Roberto, Laércio Aparecido da Silva, Valdemir Francisco da Silva, Marcílio Joaquim, Edson Francisco de Lima and in the photo, Benedito de Assis B. Eufrosino and Dilson Silva Resende with Luiz Siqueira, Manager of Chemical Operations

Idea # 113,825

Place pins in the shaper
